

Environmental Policy

Murnane & O'Shea Ltd. recognise its operations directly affect the local natural and human environment. This includes awareness of the effects its activities may have, on the air, on water and on land. We will with the co-operation of our clients, subcontractors, suppliers and all our employees seek to consider the environmental implications of all our activities from purchasing to use. To achieve these objectives we will:

- Comply with all relevant legislation and follow the necessary codes of practice.
- Advise contractors and be advised of environmental developments in the construction area.
- Plan and execute works to minimise the effects of noise, dust, disturbance and inconvenience to those affected by such operations.
- Recognise the importance of archaeological remains.
- Actively encourage greater use of those consumable items which can be recycled or reused.
- Report and correct environmental incidents as they occur.
- Use energy responsibly and efficiently.
- Promote an environmental culture through employee consultation and training.
- Monitor and continually seek improved environmental performance.

-
